## PROFILE

Software Developer with a background in Graphic Design. My experiences as a Graphic Designer have helped me develop a high attention to detail while also building skills in project and stakeholder management. I am a creative thinker and critical problem solver with a growth mindset looking to create meaningful technology.

If I'm not online tackling a coding problem, you'll often find me playing Overwatch, illustrating some funky art or rugged up on the couch eating home made hot pot.

## EXPERIENCE

**TYPING SPEED**  [click here](#)

- A SPA Typing Speed test that uses React, Express and PostgreSQL
- Timers are set to 1, 3 and 5 minutes and start on first key-stroke to determine accurate WPM

**QUIZ WATCH**  [click here](#)

- A Single Page Application CRUD flashcards platform which uses the MVC architectural pattern
- Quiz Watch uses Node, Express, Axios as well as Moment
- Try it out using **username:** quiztest, **password:** Quiztest1

## PROUDEST ACHIEVEMENT

Early February 2016, an instagram follower took such a liking to one of my illustration that they had it permanently tattooed on them. To top it off, the tattoo was rough 20cm in height!
